1. It is noted that the AC/TSS/APD intends to "review the requirements" and "to initiate a request for undertaking this project with another contractor."

2. Since it seems unlikely that it is desirable to review the requirements for the ionic oscillator with the area and operating divisions, it is anticipated that it is the intention of the AC/TSS/APD to review the requirements for the ionic oscillator within TSS/APD. It is requested, therefore, that the TSS/APD Panel review the requirements for this research program (with the aid of the [REDACTED] project engineer) and plan the ionic oscillator program for the year to come.
